

July 24, 2007

Dear Members of Congress:

As the House of Representatives considers the 2007 farm bill later this week, we the undersigned—representing millions of American farmers, ranchers, agricultural businesses and lenders from across the United States—ask that you reject outright any amendments that would weaken the farm safety net provided under House Agriculture Committee Chairman Peterson's mark. In particular, we ask you reject any amendments proposed by Representatives Kind and Flake or other amendments that represent their approach to farm policy or their proposal.

The Kind-Flake farm bill proposal—mistakenly being marketed as “reform” when it is nothing more than “repeal”—would dismantle the farm safety net and put U.S. farmers and ranchers in an unfair competition against heavily subsidized foreign producers. Virtually all of our farmers and ranchers—including those raising fruit, peanuts, vegetables, dairy, soybeans, sugar, corn, cotton, wheat, rice, other grains, livestock, and many others—would be financially harmed by even the most modest price drops if these proposals became law.

Kind-Flake would also hurt crop insurance at a time when Congress is trying to bolster crop loss protection. Moreover, Kind-Flake undermines farmers' ability to promote and use conservation methods that protect our water, air, soil, and wildlife.

Sadly, the Kind-Flake scheme ignores the unparalleled success of the 2002 farm bill, which has saved American taxpayers \$25 billion and ensures that all Americans continue to enjoy the world's safest and most affordable food supply. This proposal also fails to recognize that U.S. agriculture is an economic driver, employing 20% of the nation's workforce and contributing \$3.5 trillion to the nation's economy annually—supportive policies should not be weakened.

The Kind-Flake proposal—in any form—does not represent American farmers or the American citizens we serve every day, and we respectfully urge all Members of Congress to reject it.
